SLOW PROGRESS

By Associated Press.
Dayton, Nov. 30.—The latest clew
in the Gilman murder, the finding of
a note, a cravatette coat and vest in
a common, was practically exploded
today. The police do not believe the
find has anything to do with the
crime. At first it was thought that
the clothes resembled those worn by
a negro seen on a car in which Miss
Gilman was riding the day she was
murdered.

An east Dayton man says he lost
the clothes while on a spree. The
note found in the pocket was signed
by a woman.

REMAINS VERY COOL

Moral Coward Says He Al-
lowed Grace Brown to
Drown.

His Story Badly Riddled by
District Attorney
Ward.

By Associated Press.
Herkimer, N. Y., Nov. 30.—Chester
E. Gillette told his story of Grace
Brown's death today, this in response
to questions put to him by a prosecu-
tor who picked out every flaw in the
accused young man's testimony. From
9:36 a. m. until the court adjourned
at 12:45. District Attorney Ward
questioned Gillette and to the surprise
of every one in the room Gillette was
as cool and confident when he stepped
down to go to dinner as he was when
he walked into court this morning.
Gillette replied in the affirmative
when District Attorney Ward asked
him if he swam to the shore and left
Grace Brown to die in the lake.
A feature of this morning's proceed-
ings was the discovery of a picture
of Harriet Benedict on a roll of film in
Gillette's suit case. Gillette had sworn
that the film was unexposed. Miss
Benedict swore on the stand that she
was not engaged to Gillette.

Prisoner Refreshed.
Herkimer, N. Y., Nov. 30.—Refreshed
by the Thanksgiving day respite
after the ordeal through which he
passed at the hands of a determined
prosecutor on Wednesday, Chester
Gillette today resumed his seat on the
witness stand prepared to stick to his
story that Grace Brown, whom he is
alleged to have seen and left in Big
Moose lake died the death of a suicide.
There was a big crowd at the court
house today, much larger than the
spacious court room and its old
fashioned gallery were capable of ac-
commodating, interest having been
aroused by the announcement that
Gillette would be on the witness stand
again.

Trial Resumed.
Immediately on the resumption of
the trial Gillette took the stand him-
self carefully and comfortably and
looking intently at his counsel. Dis-
trict Attorney Ward cautioned Gillette
that he must face the jury when an-
swering questions.

Mr. Ward read a letter from Gillette
to Grace Brown under the date of
June 25th in which he said he had
been to Little York lake with some
fellows. They went in bathing.
"Gillette, if you had struck Grace
Brown at Big Moose lake, and stam-
ped her, would you have told the officers?"
asked Mr. Ward.

"Yes."
"Gillette," asked the district attor-
ney, "if you struck Grace Brown with
that tennis racket, would you have
come here and tell this jury you did?"

"I cannot say."
"Did you hate this girl?" asked the
prosecutor, reading from a number of
letters Grace Brown had sent the defend-
ant, in which she complained of his
apparent neglect of her.

"No, I did not hate her," answered
Gillette.

Here Gillette for a second diverted
his glance from the jury and Mr. Ward
shouted, "look at the jury and not at
your counsel."

Attorneys Mills and Thomas jumped
to their feet to interpose objection to
the district attorney's manner toward
the witness, and the court sustained
them, holding that Mr. Ward had no
right to so direct the witness in his
gaze.

The district attorney taking up the
matter of Gillette having received a
letter from Grace Brown in which she
referred to his contemplated visit to
Deruyter previous to their departure
to the Adirondacks the witness denied
that he was ashamed or feared to be
seen with the girl there.

"Didn't you want the girl to go to
Hamilton with you?"

"I don't know; I believe she wanted
to go to Hamilton."

"Did you know any one in Hamil-
ton?"

"I did not."

"She had relatives there, had she
not?"

"I believe she had."
"Then, you wanted her to meet you in
Hamilton where she was known, out
where you were not known, and start
from there to the Adirondacks instead
of from Deruyter?"

"I cannot state."
"When did you first know she was
to become a mother?"

"I do not remember."
"Was it in April when she left Cort-
land for South Oile that you first
knew it?"

"I cannot state."
Gillette said he did not remember of
having been accused by Grace Brown
of being the father of her unborn child
and declared his attitude toward the
girl had not changed from the time he
accomplished her ruin in October un-
til April, when her condition became
known to him.

"Did you still love her?" asked the
district attorney.
"I did," answered Gillette with a
sharp nod of the head.

Gillette stated that when he depart-
ed from Cortland with Grace Brown in-
tending not to return he left everything
in his room undisturbed and said noth-
ing to his landlady about not coming
back.

The district attorney went into a
long series of questions on the subject
of the witness' financial condition at
the time he started for the Adiron-
dacks and asked him if he had plan-
ned to use the girl's own money in
making away with her, inasmuch as
his own purse was rather depleted.
Gillette answered "No."

Next the district attorney question-
ed witness closely on the matter of
his having neglected to pay his hotel
bill in Utica when he was there with
Miss Brown enroute to the Adiron-
dacks.

Asked by the district attorney if,
when he rented the boat at Big Moose
and went out on the lake with Grace
Brown, he understood his financial con-
dition would not warrant his hiring a
boat from noon until night, Gillette
answered he did but he did not care
about the cost.

Gillette was shown the films that he
took on his trip to Bear Mountain and
elsewhere on his journey through the
woods.

"Gillette," asked the other day
for your counsel that these films I hold
here were never exposed, didn't you?"

"Yes."
"And then after you had sworn to
that you told your counsel not to ex-
amine you any further on that point,
didn't you?"

"I cannot state."
"Now, whose picture is this which I
show you and which you swore had not
been developed?"

"It is a picture of Miss Harriet Bene-
dict of Cortland."

The picture of Miss Benedict was
taken before Gillette left Cortland on
the trip which ended in the death of
Grace Brown and his arrest on a
charge of murder.

The district attorney showed Gillette
another picture and asked him if he
had taken it. It was a picture of the
rustic bridge on Mig Moose lake, but
Gillette denied ever having taken the
picture.

Coming down to the writing by the
witness of the fictitious names he had
placed on the registers in the hotels
at Utica and Tupper Lake and also to
his registering as "Chas. Gordon," at
Deruyter on the night before he start-
ed from the last named place form the
Adirondacks with Grace Brown. Gil-
lette replied that his purpose was to
protect the girl.

"As a matter of fact, you did not
want any one to know it was you,
Chester Gillette, who was there, did
you?"

"Maybe, I feared someone who
might have known either Grace or my-
self would see the name 'Gillette' on
the register, so I put down the names
'Gordon and wife.'"

After a ten minutes recess Mr. Ward
asked Gillette.

"Have your attorneys during recess
told you that you had made some mis-
takes in your testimony?"

"No."

The witness after admitting that the
fictitious registration at Deruyter,
Utica and Tupper Lake was because
he did not wish it known that Grace
Brown was with him, testified that
he had registered at the Glen
Moore as Carl Graham, of Albany, and
Grace Brown, of South Olenic, because
Miss Brown had sent a postal card from
there signed with her name.

"You wanted it known at the Glen
Moore hotel that Grace Brown was
traveling with a man named 'Carl Gra-
ham, of Albany, didn't you?" asked
the district attorney.

"No."

"So that when her dead body would
be found the authorities would tele-
graph that Grace Brown had gone to
her death with an individual named
'Carl Graham.'"

"No."

"Well you expected something to
happen, didn't you?"

By Associated Press.
Chicago, Nov. 30.—The dissensions
which have for the last year prevailed
in the ranks of the local teamsters'
unions were, today, carried into the
trial of Cornelius P. Shea, who in com-
pany with sixteen other men, is on
trial for alleged conspiracy in con-
nection with the Great Teamsters'
strike of June, 1905.

Albert Young, former president of
the teamsters' union; William Kelley,
business agent of the coal teamsters'
union, and Michael Murphy, said to
have been a member of the "wrecking
crew" during the strike withdrew their
pleas of not guilty and entered pleas of
guilty. All of the men declared their
intention of turning state evidence.

The incident caused intense excite-
ment in the court room and took the
other defendants completely by sur-
prise. Shea and Young had for years
been close friends and had worked
through a number of strikes side by
side. Since the last convention of the
teamsters' union, however, they have
been opposed to each other and have
led factions which have fought each
other bitterly both in the meetings of
the unions and in the city streets.

The trouble between Albert Young
and Cornelius P. Shea resulted from an
effort made by the former to secure
the presidency of the International
Teamsters' union. He represented an
element in the union that was opposed
to Shea and dissatisfied with his meth-
od of conducting the Chicago strike.
Shea was re-elected and Young then or-
ganized a rival organization which is
known as the United Teamsters of
America. Since the creation of the
latter body there has been bitter
strife between the teamsters and as-
saults and fights on the streets have
occurred frequently.

After Young, Kelley and Murphy
had entered pleas of guilty it was an-
nounced that Joseph Schultz, who is
said to have been one of the "body
guards" of President Shea, during the
strike will also turn state evidence.
Schultz is under indictment in con-
nection with alleged assaults commit-
ted during the strike but has not yet
been arraigned.

S.S. PURELY VEGETABLE

ly is a medicine valuable for its ability to cure disease, but the
fact it affects the system is a very important factor. When the
infected with the germs of disease as in Rheumatism, Catarrh,
Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc.,
the vegetable strength is needed to assist in eliminating
these and impurities which are causing the trouble. It should not be
treated with strong mineral mixtures and concoctions that further
burden, by disagreeably affecting the bowels, producing indiges-
tion and the delicate linings and membranes of the stomach. The
vegetable purity of S. S. has always been one of the strongest
reasons for its being now the most popular medicine on the market.
Fully known and universally used blood medicine on the market.
These are selected for their well known curative properties,
and are known at the same time to possess the tonic effect. Not only
is every part of the system by their fine tonic effect. Not only
is the blood purified, but it is the one medicine that may be

VALUE OF KISS

Compared with Ordin-
ary Chickens

By Aspiring Correspondent
Making His Home in
Mendon.

THERE IS NO ANSWER

But the Idea is to Come as
Near Guessing Correct-
ly as Possible.

Turkeys, Kisses and Chick-
en, All Mixed, Not Found
in Cook Book.

Anyone, after reading the following
sent out of Mendon, O., who can pos-
sibly find some intelligent idea of rela-
tive values of turkeys, kisses, chickens
and dollars, surely deserves a leather
medal. Here goes the dope:

Is a turkey a kiss? Is a kiss a
chicken? If a man agrees to give a
woman some chickens in exchange for
some turkeys, and in delivering the
chickens kisses the woman, is he
guilty of a breach of contract, or
merely of giving an over-full bargain?

These, and all the other questions
they suggest, are agitating the judi-
cial mind of "Squire Carley, and, in-
cidentally, giving the gossips of the
village more to talk about than they
have had since election. The sober
facts are these:

Some time ago James Dalzell of Nor-
walk sold some chickens to Mrs.
Esther Norton, of Milan. He was to
take his pay in turkeys of which Mrs.
Norton had more than she needed.
One day last week Dalzell delivered
the chickens. Mrs. Norton says he
also delivered her a lot of kisses for
which she did not ask, for which she
had no need, and which, now she has
them make her highly indignant.

Because of these kisses, Mrs. Nor-
ton caused the arrest of Dalzell. He
was quietly and ostentatiously hauled
before the judgment seat of Squire
Carley and entered a plea of not
guilty.

Pondering over the matter, Dalzell
changed his mind. He announced
that he would also change his plea
to guilty. He did this at 2:30 the
same afternoon and was fined \$10 and
costs.

Mrs. Norton was questioned by
Squire Carley, who wanted some evi-
dence to guide him in the Mikadoan
policy of "making the punishment fit
the crime." Mrs. Norton said the
kissing offense occurred on the 17th.
She said nothing about it at the time.

Three days later Dalzell stopped at
their place to take shelter from a
heavy rain. Mrs. Norton and her hus-
band invited him in to dinner and he
accepted. Nothing was said about the
kissing affair then, nor until the com-
plaint was filed, last Friday. Asked
why she didn't accuse Dalzell in her
husband's presence when the former
stayed for dinner, Mrs. Norton replied:

"Because I was waiting for him to
say something. I thought we could
talk over the matter of damages then.
But he never referred to the subject."
Though an effort has been made to
keep the whole matter quiet it leaked
out this morning and the village gos-
sips are busy. The men folks don't
so very much blame Dalzell for the
unasked delivery of kisses—but they
are not saying so in the presence of
their wives—for the kisser is fair to
look upon.

TABLETS CURE

Constipation

That "Day After" Feeling,

It's a fine thing to have your family and friends
gathered round the table before a meal that leaves
nothing to be desired.

Things taste fine at the time and assisted by the
flow of mirth and good feeling, all indulge themselves
generously.

But afterwards—

Headaches usually, and that weary, tired, unnerved
feeling that tells of congested bowels, full of waste
matter, clamoring to be released.

Don't neglect their appeal,—to do so is dangerous.

The bowels are the key to the health of the entire
body.

Active and regular, they keep every other organ in
good condition.

Inactive and sluggish, they throw back poisons into
the system which have a terrible effect on every organ.

Headaches, nerves on edge, sleeplessness, in-
digestion, backache, biliousness,—these are but a few of
the results of inactive bowels.

But the worst part is that constipation doesn't stop
there.

Nine-tenths of the diseases which bring death to
mankind have their beginning in a neglect of the bowels.

Does this seem like a strong statement? Ask your
doctor. He will tell you we are right.

Let us impress this fact firmly upon you. Don't
neglect the bowels. Give them the attention they need.

Always keep a supply of Iron-Ox Tablets at hand.
They give immediate relief.

Do not confound Iron-Ox Tablets with cathartic
pills or strong purgative doses. Iron-Ox has a mild
laxative action, which combined with its tonic effect
makes it the ideal medicine for bowels, stomach, liver
and kidneys.

large family size, 1250 tablets, \$1.00. Trial package 10 cents. At all druggists

WEATHER FORECAST.

By Associated Press.
Washington, Nov. 30.—For Ohio:
Rain tonight, warmer in east portion;
Saturday, rain or snow and colder.

There does not appear to have been
enough fog leaves used to satisfy the
critics of Mark Twain's "Eve's Diary."

The president says the canal is all
right and he has been to Panama like
Poulney Bigelow, he should know
something about it. All that is needed
is money and labor.

Mr. Roosevelt advises his subordi-
nates to pay no attention to criticism,
but he can hardly expect they will fol-
low his advice as long as he is so fur-
ious over being criticized himself.

The protective tariff and other re-
publican policies are working against
our manufacturers for their export
trade to China and Japan for the
present year is \$28,497,085 less than
last year.

Vice-President Fairbanks was sur-
prised at the warmth of his reception
at Tampa, Florida, but he should re-
member that in that semi-tropical
region they are glad to get anything
that will help them to keep cool.

The patent attorneys are calling up-
on the commissioner of patents to re-
sign charging that he has demonstrated
his belief that "public office is a
private snap." Will there never be an
end of these republican scandals?

A change of 87 votes in the legisla-
tive districts would have changed the
complexion of the Delaware legisla-
ture and there were hundreds of demo-
crats who did not vote. Eternal vigil-
ance is the price of liberty.

The patent office is under fire but
Commissioner Allen declares he will
not resign. As Allen belongs to the
Senator Platt school of politics his
decision not to resign under fire is
quite natural for few of such patriots
die and none resign.

As twenty-seven republican candi-
dates for congress were defeated by
the democrats, besides those, like
Gen. Grosvenor, who were refused re-
nominations by their party President
Roosevelt will have a big flock of lame
ducks to provide for.

The republican attempts to show
that the workingmen were dissatisfied
by the political activity of President
Gompers, is shown to be absurd, for
he was unanimously re-elected presi-
dent at the national convention, just
held, of the American Federation of
Labor.

The Wall street frenzied financiers
and other national bankers having se-
cured about all the surplus in the
United States treasury now declare
that the money tension is ended for
this year. Secretary Shaw certainly
is an easy mark for the Wall street
sharks.

Perry Belmont resigned in haste as
a member of the New York democratic
state committee and is now repenting
at leisure. He should follow the ex-
ample of Senator Platt, who as one of
the shining lights of the republican
party, does not propose to repent, as
he was caught in that trap once before
when he and Conkling resigned in
haste.

Mark Twain's new book "Eve's
Diary" has been put under the ban by
the Worcester, Mass., library authori-
ties, on account of the Ebian cos-
tumes in which Eve is depicted in the
book's fifty etchings. As Eve did not
have the advantage of bargain counter-
sales and tariff fostered trusts with
their infant industries had not yet
been invented, how can these very
particular library custodians expect
Eve to be dressed in modern costume?

The Chicago Inter-Ocean has so-
lemnly decided that "the logic of po-
litical facts makes it almost certain"
that the republican candidate in 1908
will be either Joseph G. Cannon, or
Charles W. Fairbanks. That would
certainly be good luck to the demo-
crats for both are ardent standpatters
and the people evidently are trending
towards tariff reform, besides Uncle
Joe would have strong opposition from
Organized Labor and Fairbanks is too
much of a cold storage proposition to
warm up even the machine republicans.

REPUBLICANS AND LABOR LEGIS-
LATION.

Now the excitement of the election
is over and republican politicians can
for the time open their hearts to the
protected trusts magnates, we are be-
ginning to learn some truths about la-
bor legislation. Congressman Little-
field told a convention of manufactur-
ers and employers at New York that if
Mr. Gompers's labor bills, which the
congressman so strongly opposes, could
be reported from committee they would
pass the house "today" by "an over-
whelming vote."

But perhaps Congressman Littlefield
is trying to magnify his own impor-
tance as an opponent of the demands
of organized labor or is the republican
party so scared that it is at last ready
to concede every thing and anything
to appease the wrath of the workmen?

A FAIR DIVIDE WANTED.

The tariff protected trusts having in-
creased the cost of living nearly 50
per cent for which the republicans
leaders are responsible by standing
pat, the voters in the late election gave
G. O. P. a jolt just to remind it that
patience was ceasing to be a virtue.
Two or three corporations, closely al-
lied with the republican party, there-
fore gave notice that the wages of
their employees will be raised ten per
cent, and their organs, the Pittsburgh
Gazette-Times, boasts: "The very first
thing that triumphant republicanism
does is to raise wages all around."
This open confession that "triumphant
republicanism" is closely allied
with the trusts and corporations,
should be kept in mind by those who
only get ten per cent to pay fifty per
cent increase on what they have to
spend and prepare to make the next
jolt they administer to the party of
trusts and special privileges enough
harder so as to force the corporations
to make a fair divide of their protected
profits.

FISCAL LEGISLATION.

It is all nonsense and will look like
political claptrap for President Roose-
velt to recommend the republican lead-
ers in congress to enact an income tax,
or an inheritance tax, unless he is also
prepared to recommend and urge con-
gress to revise the tariff by cutting
off the enormous protection the trusts
now enjoy. The present high tariff
taxes, added to the internal revenue
taxation, produce more money than is
needed and to impose tax, however
just and fair it may be, would only pile
up a larger surplus and be a still great-
er incentive to extravagant appropria-
tions than the present surplus is. It
might, however, be suggested that in-
stead of issuing more bonds to build
the Panama Canal, the proceeds of an
income tax could be used for that pur-
pose. Instead of piling up a national
debt for future generations to pay.
But what is the use of offering sug-
gestions to standpatters whose only
idea of statesmanship is to "let well
enough alone" by continuing to allow
the trusts to plunder the people?

happen out there on the lake that day,
didn't you?"

"No, I did not."

Gillette identified a number of arti-
cles which had been found in his suit-
case, and the district attorney pressed
him at length regarding the reason for
his taking his overcoat, umbrella and
tennis racket along on his boat ride
with Grace Brown. He said he took
the overcoat along because he thought
Grace might need it although it was
a hot July afternoon. When question-
ed about his straw hat which was found
with the lying torn out, floating near
the overturned boat, Gillette said it
had been done several months before
the tragedy and not before he started
on his walk through the woods to
Eagle bay. Gillette said that after
getting out of the water where Grace
Brown met death, and after changing
clothes, he took a soft hat out of his
suit case and put it on his head in
place of the straw hat he left in the
water.

He denied strenuously, however, hav-
ing provided this soft hat for just such
an emergency.

Gillette was asked about his trip
through the woods to Eagle bay, and
as to the prevalence on shore of flies
and punkies.

"There were no flies or punkies on
the lake?"

"No."

"But you stayed in the brush on
shore for an hour reading?"

"Yes."

"Where the flies were?"

"Yes."

District Attorney Ward enumerated
the value of the suit case, umbrella
and tennis racket and other articles
Gillette said he left ashore while he
and Miss Brown continued their row
about the lake and asked Gillette if he
was not afraid the articles, unguarded
as they were, would be stolen.

Defendant answered, he considered
the articles were safe enough where
he had left them.

Gillette in explaining why he had
told Bert Gross and the Patrick and
Westcott girls that he been to Raquet
lake, said it was to create the impres-
sion that he had not been to Big Moose
lake with Grace Brown, thus diverting
suspicion from himself.

He admitted the statement was false.
Gillette stated that his version of the
tragedy as narrated to Sheriff Klock,
a few minutes after his arrest to the
effect that the affair was an accident
and that he had tipped the boat acci-
dentally while they were picking pond
lilies was a lie.

"Now did your attorneys tell you to

tell a different story than the one you
told Sheriff Klock?"

"They did."

Witness describing the girl's act in
leaping into the water to her death
said she jumped from the stern of the
boat, that he shouted for help, that no
one responded and that he tried to find
out how deep the water was there.

"Did you try to reach her?"

"No."

"Yet you say you swam in the Pac-
ific Ocean?"

"I did."

"And you did not swim to this girl's
aid?"

"I did not."

"When she leaped into the water
from the boat what did you say you
did?"

"I reached out my hand toward her,
then the boat tipped over."

"And you who had swam in the lakes
in Washington and in the Pacific
ocean, left Grace Brown there without
swimming to her aid?"

"I did."

THE STAGE.

The Faurot opera house will have for
its attraction tomorrow afternoon and
evening "The Man of Her Choice," a new
four act play written and produced by
Ed. M. Simmons. "The Man of Her
Choice" tells a simple story of the love
of the only daughter of a wealthy Wall
Street banker for a poor young man
and their trials and tribulations before
their marriage is an accomplished fact.

At the head of what is reported to
be one of the strong companies that
has been got together in the support of
a melodramatic star, the popular young
actor, Joseph Santley, is to present his
new play "Billy the Kid" at the Fa-
urot opera house next Monday night.

NEWLY CHOSEN

Judge of the People to
Come Here.

Arrangement are Made for
Judge Cameron, of
Defiance.

PLAINTIFF WON CASE

In the Jury Cause Which
Was Completed in the
Court Today.

Sensational Divorce Case is
Happily Adjusted Be-
fore Trial.

Judge Don C. Cameron, of Defiance,
who was recently elected on the west-
ern sub-division of this judicial dis-
trict, will in all probability take up his
first duties in this city Monday.

Judge Cameron was chosen to the
common pleas bench by the people af-
ter a close fight with former Con-
gressman John S. Snook, who was ap-
pointed to fill out the unexpired term
of the late Judge Wm. H. Hubbard.

Judge Armstrong finished up the
case of Waller & Ritner, contractors
against Hermsler, on a building con-
tract. Jury found each indebted to the
other, but the verdict went to plaintiff
and was given judgment for \$105.83.

In the recalling of Judge Hubbard
by the coming here of his successor,
Judge Armstrong stated that he will
have served eight years on the com-
mon pleas bench of the district Febru-
ary next. During that short period
every other judge on the bench at the
time he was himself elevated, has passed
away save alone Judge Michael
Donnelly, of Napoleon, now, however,
on the circuit bench. Though the dis-
trict is made up of eleven counties and
there are eight active judges engaged
in the work on the common pleas
bench.

Until Monday.

The common pleas jury was dismis-
sed until Monday when it will be called
to try the case of L. Finley vs. John

Thomas, a paternity action.

SENSATIONAL DIVORCE

Case Filed But Happily Pleading Were
Withdrawn Today.

A sensational petition the fair plain-
tiff praying for relief through divorce,
was filed late Wednesday evening in
which cruelty was the main cause for
action, the wife alleging her husband
had thrown hot meat and hot potatoes
at her and covered her person with hot
grease. Fortunately for all concerned
each waived a little in denunciation,
and a happy reunion has occurred, with
the petition withdrawn from the courts.
Here's hoping it will never again ap-
pear and that the couple, will celebrate
their golden wedding anniversary to-
gether.

More to Wed.

Not all the bridal couple walked to
Mendelssohn yesterday and today two
belated brides and grooms sought the
necessary permits from the probate
court, as follows:

Charles Rount, 26, machinist, of Con-
voy, and Maud Kipker, 18, of Lima.

Harry E. Anderson, a farmer of Low-
ville, and Mary Campbell, 23, an ac-

A BEAUTIFUL GAME

Played With All the Dash and Vim of Old Warriors.

IN A BLAZE OF GLORY

High School Team Closed The Season With a Victory.

Five hundred people watched the High school-Alumni foot ball game yesterday and wondered how it could have been that Lima High ever lost a game during the season.

Had the regulars played in the form they displayed yesterday earlier this fall they would have been champions of the northwest. Each player seemed to remember every word of his coaching from the first day of practice. The game was flawless from start to finish, and though the Alumni boys were heavier and strained every nerve they at no chance had opportunities for scoring.

Much of the splendid work of Coach George Houck was noted in every dashing play, and he certainly deserves all credit for the fine team Lima High possessed, and which had no stage fright seized it when away from home, would have been heard from as champions.

The high boys won as they pleased. Score 21; Alumni, 0.

SUFFERED FROM ATAXIA

Was Treated for Sciatic Rheumatism. FINALLY CURED BY DR. WILLIAMS' PINK PILLS.

Wife of a Government Employee Makes a Statement of Interest to Every Nervous Sufferer.

Mrs. S. C. Wellock, of 114 Cleveland avenue, Everett, Mass., is a wife of an employee in the government works at Chelsea. Mr. Wellock is a veteran of the Civil war, having served in Co. C, First Massachusetts Infantry, and both are well known in their home town. This is important because Mrs. Wellock has been cured by a popular remedy of a disease until recently regarded as incurable and her statement will bear the most searching investigation. The permanency of her cure is best attested by the fact that she has felt no return of the symptoms for over a year. She says:

"I had been troubled with nervousness for the last ten years and about two years ago had an attack of what was pronounced sciatic rheumatism. I noticed that the trouble kept growing on me and I began to take medicine for it. It was then I learned that I was suffering from locomotor ataxia. I had terrible tremblings in my right leg which would get rigid and when this happened in the street I had to stand still until it passed away to keep from falling. My right arm felt as if a thousand needles were pricking it. The sheet touching my knee in bed nearly caused me to scream out with pain and both knees were so weak I could hardly stand.

"I had to use a cane and be helped about by my son. Then the pain began to settle in the calves of my legs and the muscles became numb and quivered constantly. The cords under my knees seemed to be drawn up tight and the terrible shooting pains in my legs would nearly drive me insane. My toes became numb and at times would prickle as if needles were being thrust into them. My eyes became dull and black spots floated before them. My heart was very weak. The doctor told me I had to be very careful or I would bring on a stroke and it might cause death. Besides the nervous trouble, I suffered from acute indigestion and inflammation of the stomach.

"My attention was called to Dr. Williams' Pink Pills by a pamphlet which was left at my house in which were given a number of cases of nervous diseases, including locomotor ataxia, cured by these pills. I bought several boxes right away and very soon felt relief. I was so pleased that I kept on taking them until they cured me entirely, and I have had no symptoms of the trouble for over a year."

Nervous diseases may be traced directly to the blood for their cause. This is why Dr. Williams' Pink Pills have been so successful in nervous disorders such as dizziness, sick headache and locomotor ataxia. These diseases have been permanently cured by treatment through the blood when ordinary remedies had failed. Dr. Williams' Pink Pills build up the nervous system by making new blood and also cure effectively such blood diseases as rheumatism, after-effects of the grip and fevers, and anaemia.

A booklet, entitled "Nervous Disorders," will be sent free to any one interested upon request.

Dr. Williams' Pink Pills are for sale by all druggists or will be sent, post-paid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

A Daring Wasp.
Some wasps live in part upon honey, which they collect from the most open petalled flowers, and thus to a very moderate extent they may be regarded in the light of flower fertilizers. Kirkland says in the first volume of the American Naturalist that "the paper hornet (Vespa maculata) often enters my window hives when I am rearing Italian queen bees and captures the young queen in the midst of her little colony, usually just after she has commenced her first laying. I have seen this depredator enter the small hive, drag out the queen and fly away with her to the woods" (page 52). Some of the species of the genus polistes store up honey which is poisonous, from the fact that it has been collected from poisonous flowers. They are found in South America, where also species of the genus chertargus occur—wasps that make a very remarkable and tough nest, with funnel shaped combs inside, arranged one inside of another, nest fashion, but not in contact except at their points of suspension. At the apex of these cones occur the apertures of entrance for the inmates to pass up among the conical tiers.

Steering the Ship.
The work of steering a great ship, even with the aid of modern machinery, is much more delicate than one would imagine. The larger and faster the ship the greater is the difficulty. It is not enough to hold the wheel in the same position to keep the ship on her course, for the wind and waves and the currents of the ocean tend constantly to knock the ship off her course. The great wall of steel (for the hull may be 700 feet long and sixty feet high) offers a broad target for the wind and waves. The art in steering is to humor the ship to these forces and when she is deflected bring her back quickly to her course. If you could watch the binnacle, especially in bad weather, you would see the needle of the compass constantly shifting from side to side, which means that the great steel prow is not going forward in a perfectly straight line.—Francis Arnold Collins in St. Nicholas.

New York's Cab Drivers.
A driver has to have a license. That mysterious official, the mayor's marshal, grants one upon the payment of 25 cents and two written testimonials of honesty. A man may come out of Sing Sing, whither he has been sent for highway robbery or stoning the minister's cat or any other crime, if he presents two greasy letters—one of any Jones and the other of any Smith—stating that he is an honest fellow he will get a license. No inquiry is made. His references are never looked up. Indeed, if you are a desperate criminal—guilty of murder or failure to pay alimony—you can do no better than take out a license and hide on top of a cab. So into the business drift all sorts and conditions of rogues. Under the aegis of the law (the regis being a twenty-five cent badge) they rob you and me.—Vance Thompson in Outing Magazine.

The Hessians Played.
It is a matter of record that upon the first official celebration of Independence day by the Continental Congress music was secured for the occasion by forcing the Hessians band, which had been captured by George Washington at Trenton in the previous December, to play in the public square all day, to the great delight and amusement of the people. It is also stated that these involuntary celebrants were obliged to practice appropriate airs for three weeks previously in order that they could not plead ignorance as an excuse.

Curious Coincidences.
When the Ring theater, in Vienna, was burned, with great loss of life, one of the other playhouses of the Austrian capital was playing Pailleur's "Le Monde on Pion S'ennuie;" when the Stadt theater, in Vienna, was burned another theater in that city was playing "Le Monde on Pion S'ennuie," and on the evening of the day when the fire in the theatre francais was announced to play "Le Monde on Pion S'ennuie."

Jennyson.
"That word 'communist,' my dear," observed the young husband, correcting her, "has the accent on the first syllable."

"How do you know?"

"The dictionary says so."

"I never saw a man as prejudiced in favor of dictionaries as you are!" exclaimed the young wife. "I wish you had married a dictionary!"

Too Much at Stake to Forget.
"When you are absorbed in your business cares downtown today, Herbert, you will forget your little wife entirely."

"No, darling. That steak you cooked for me with your own sweet hands this morning for breakfast will keep you in my memory every minute of the day."

Overriding the Exercise.
Footpad (with revolver)—Hold up yer hands! Victim—You can go through me if you want to, but I'll be damned if I'm going to hold up my hands any more! I'm tired of doing it. You're the third since I left the lodge.—Chicago Tribune.

According to Circumstances.
A man never talks much about the "sweetness" of a coil pipe so long as he has money to buy cigars.—Topeka Capital.

Coal dust mixed with salt and water and made into good sized lumps will be found very useful to bank up fires at night.

A Reliable Remedy for Croup.
Mrs. E. Rosenthal, of Turner, Mich., says: "We have used Chamberlain's Cough Medicine for ourselves and children for several years and like it

Woman's Watchword Is Modesty.

Whatever threatens woman's delicate sense of modesty, frightens her. For this reason many a woman permits disease of the delicate womanly organs to become aggravated, because she cannot bring herself to submit to the ordeal of unpleasant questionings, offensive examinations, and obnoxious local treatments, which most physicians think necessary. Doubtless thousands of the women who have taken advantage of Dr. Pierce's offer of free consultation by letter have been led to do so by the escape thus offered from a treatment repugnant to modesty.

Any sick woman may write to Dr. R. V. Pierce, Buffalo, N. Y., in perfect confidence; all letters of consultation being treated as strictly private and being confidential, and all answers being sent in plain envelopes with no advertising or other printing upon them. Such consultation costs you nothing whether you take treatment from Dr. Pierce or not.

Dr. Pierce's Favorite Prescription has been called a "God-send to women." It makes weak women strong and sick women well. It enables women suffering from "female weakness," prolapsed uteri, retroversion, anteversion, and other displacements of the organs distinctly feminine, to cure themselves right in the privacy of their homes. Pelvic catarrhal drain, painful or irregular periods, backache, frequent headache, weak nerves, dragging-down pains or distress in the lower abdominal, or pelvic region, gnawing sensation in stomach, dizziness, or faint spells, and kindred conditions and symptoms are cured by Dr. Pierce's Favorite Prescription. It is not a secret or patent medicine, against the use of which most people of intelligence naturally object, but, in fact, the "Favorite Prescription" is a regularly educated and experienced physician in the treatment of woman's peculiar ailments and who is not afraid to publish all its ingredients, as he does, on its bottle-wrapper, attesting the correctness of the same under oath.

"Favorite Prescription" is the one medicine for woman's delicate ailments which contains neither alcohol nor harmful habit-forming drugs, being a pure glyceric extract of curative principles found in our most valuable native medicinal roots, as attested by many of the most eminent medical writers and teachers of all the several schools of practice.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked, "worn-out," run-down, debilitated teachers, milliners, dress-makers, seamstresses, "shop-girls," house-keepers, nurses, mothers and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cardiac and restorative tonic. As a soothing and strengthening nerve "Favorite Prescription" is unequalled.

REMARKABLE CONCERT.

Girl is Hypnotized and Transformed Into a Male Singer.

(New York American.)
Many prominent persons interested in psychical research, including Mrs. Henry Siegel, made up part of the audience gathered in the Bowery Mission last night and heard Miss Edna Murray, a young protegee of Mrs. Siegel, make her first appearance here in a remarkable series of songs under the influence of hypnotic suggestion.

The young woman is of medium stature and good physique, and her natural voice would be soprano or contralto, but in the hypnotic state she sang in a robust barytone with a powerful tone and volume that few baritone on the operatic stage could attain, and seemingly without effort.

The performance was more notable for the fact that Miss Murray accompanied herself on the piano, and her body was not in the best condition to put the full strength into her singing.

It was almost impossible to believe that it was the young woman at the piano who was singing, but Miss Murray, at her mother's suggestion, turned her face to the audience while singing, and the rich rolling tones came from her throat as easily as if she was humming to herself some simple air.

To make the concert enjoyable to the main part of the audience, which had drifted into the meeting from the Bowery, Miss Murray sang old and familiar songs, and the low notes in "My Old Kentucky Home" were especially effective and showed the good range of the singer's voice under hypnotic suggestion.

Dr. Gustave A. Gayer, "criminologist and suggestionist," whose hypnotic demonstrations have been attended by Mrs. Siegel and other prominent society women and those interested in psychical research, was in charge of the concert, but made no suggestions of hypnotic passes, as he explained that Miss Murray has reached that point near excellence where such aid is unnecessary. She hypnotizes herself by auto-suggestion, and sings while under this influence.

"It is not more than 18 months since my voice first possessed this quality," said Miss Murray. "Then I heard the singing of a young man which I very much admired. I longed to be able to sing like him, and determined, as it were, that I should imagine my surprise the next time I sang to find my voice possessed of the same masculine qualities which it has since retained."

ed and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

You can't afford to accept a secret nostrum as a substitute for this PROVEN REMEDY OF KNOWN COMPOSITION.

"The Blood Is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood-purifying constitutional treatment. If your drug store doesn't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and he will send you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

The only explanation I can give is that which Dr. Gayer advances—that I hypnotized myself into the feat by self-suggestion and determination, which is known by hypnotists as auto-suggestion."

The discovery of her powers was made in Ft. Worth, Texas, where Miss Murray was then living. In New York she was brought to the attention of Dr. Gayer, who has been using his powers in an endeavor to bring her to a still higher standard of perfection. She has been a subject of interest to many of the prominent physicians in the city. Dr. Gayer pronounces her an unusual hypnotic subject.

Miss Murray intends to go to Europe to complete her musical education. She says she has no intention of going on the stage but will probably appear often at society concerts on her return.

"When my voice was ordinary I sang but little," she said. "But now singing is my chief delight. I enjoy my voice like a toy and play with it as such. But my fear is that it may be taken from me. However, Dr. Gayer assures me that with aid of suggestion in the sub-conscious state my voice has been made permanent."

The New Pure Food and Drug Law.
We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. Wm. M. Melville, old postoffice corner.

Perfectly Natural.
"How often a millionaire's widow marries the physician who attended her husband. Queer, eh?"

"Not at all. The doctor is invariably the first man on the ground."—Washington Herald.

A Good Lintment.
When you want a good reliable lintment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by all druggists.

Would You be Strong ? THEN DRINK LIMA BEER

That the regular use of Lima beer will give strength and vigor, is no idle claim. The "body" of Lima beer is barley malt, one of the most vitally nutritious foods, and hops, one of the best known tonics.

Lima beer nourishes the body, puts new vigor into the blood, aids in the digestion of other foods and tones up the entire system.

Get a case of this fine beer, drink it regularly and note the beneficial effects.

A 12-foot vein of coal was drilled

pany, in sinking a test well on the
Morgan farm, east of Iowa. It was
found at a depth of 985 feet. The coal
is of fine quality and eight feet of the
twelve is said to be of the best grade
and workable. The first 18 inches of
coal at the top and the last 18 inches
on the bottom of the vein is not so
good. Overlaying the vein is a roof
of slate which will make the mining of
the coal a safe venture should a shaft
be put down.

he has been fairly beset

ous throng of Nash-
villians, who have been

man's remedies and
many others who wish-
him before his depar-
ture and jammed the

ue. Upon being interviewed in re-
gard to the matter, he said: "For
several years I was afflicted with a
severe form of stomach trouble
and with rheumatism. My stomach
was never in good condition
and for the past few months al-
most anything I attempted to eat
disagreed with me. At times I had
a good appetite and again the
sight of food would nauseate me.
I suffered a great deal of pain in
the region of the stomach and
was greatly bothered by an ac-
cumulation of gas shortly after
eating anything. My rheumatism
was also a source of great trouble.
My arms were drawn and almost
useless and large knots had formed
on my hands and forearms
which were exceedingly painful. I
was persuaded by a friend to give
the Cooper remedies a trial and
have been using them for about
three weeks. My stomach is in
prime condition. I am able to eat
with a relish and suffer no after
effects as I did a few weeks ago.
The pain in my arms is gone and
the muscles are relaxed and grow-
ing stronger. You see these
knots have almost disappeared,
and they are absolutely without
soreness. The effects of this med-
icine appear very wonderful to me
as I have tried many remedies
without receiving any noticeable
benefit. I am more than grateful
to Mr. Cooper and, like hundreds
of others in this city, feel that
nothing I can do will quite ex-
press how I feel toward him."

The sale of Cooper's prepara-
tions in Lima, has been so large as
to be regarded by many as phe-
nomenal and at Wm. M. Melville's
drug store, where the remedies
are sold in this city there is said
to be a large demand for them.

A CARD FROM MR. HARRISON.

The St. Marys Leader says:
"J. C. Arbaugh, who is principal
of one of the ward school buildings at
Lima, was in the city this morning
and gave this office a call. Mr. Ar-
baugh says that the charges which
were brought against him a few days
ago by an obstreperous pupil were
trumped up, and that he has been
fully vindicated by the superinten-
dent and the board of education. He
says that the pupil, whose father
complained to the humane office
specifying charges of cruelty, is an
ungovernable youngster, but that he
never inflicted any such punishment
on the boy as was stated in the
charges."

"Mr. Arbaugh says that nothing
more will be heard of the matter,
and he regrets that the newspapers
gave such a small matter such wide
publicity."

The above, taken from the St.
Marys Leader and copied this morn-
ing in the Gazette, justifies me in
making public the facts relative to
the recent treatment administered to
my son by John C. Arbaugh, prin-
cipal of the west Spring street school.
Heretofore I have refrained from
giving any statement for publication,
believing that justice and fairness
would be the ultimate result. After
satisfying myself beyond a question
as to how Arbaugh treated my son
by pulling his hair out, beating and
bruising his face and neck and mak-
ing threatening statements to him
in the event he revealed to his par-
ents the punishment received, I
promptly communicated with Mr. J.
V. Smiley, president of the Humane
Society. Mr. Smiley, after proper in-
vestigation, secured information
which justified him filing complaint
before Judge Dempster. Arbaugh was
placed under bond of \$200.00 for
his appearance (tomorrow) Satur-
day.

When the matter became known to
Prof. John Davison, Superintendent,
that gentleman, acting for peace and
in the interest of the schools, re-
quested of me certain concessions
which I acceded to conditionally, viz:
That Arbaugh appear before Messrs.
Smiley, Davison, my son and myself
and make a frank and open admis-
sion of his conduct, offer proper
apology and promise that brutal-
ity, not only to my son but to all
pupils of the school, should cease.

This meeting was held in Prof.
Davison's office, Tuesday afternoon
between four and six o'clock. The
case was gone into carefully by Prof.
Davison and my son told of the ac-
tion of Arbaugh but he protested his
innocence. Prof. Davison then ad-
ministered to Arbaugh a severe re-
primand, accompanied by wise and
friendly advice, and left no ques-
tion of a doubt as to his position,
making his statements emphatic that
he did not approve of brutal treat-
ment and forbade any recurrence
of such actions, stating that should
conditions arise where drastic meas-
ures were necessary to call for him
and he would deal with the case per-
sonally. He also admonished Ar-
baugh from discussing this case in
any manner, and requested that the
matter be closed. Acting upon this
assumption I very reluctantly agreed
to let the matter drop.

Now, however, that Arbaugh has
attempted to show that he has been
vindicated by Prof. Davison and the
school board, I feel, not only in jus-
tice to myself and family, but to
Prof. Davison and the board, that a
true statement of facts be published.
Prof. Davison was very much sur-
prised and grieved when his atten-
tion was called to Arbaugh's latest
publication and he emphatically
stated that no vindication had been
made, either by himself or the school
board. The question was discussed
by members of the board after ad-
journment, but not while in official
session. The board members were
not in a position to condemn or vin-
dicate for the reason that the case
had not officially been brought be-
fore them.

No parent in Lima has a higher
appreciation of the value of the edu-
cational work here than myself, and
I would be the last person to cause
discord or disruption, but Arbaugh's
action should not be passed over
lightly.

Sincerely,
GEO. W. HARRISON.

John Norz and Mrs. John Nauss,

This is the case of the wronged hus-

suspicious of his wife not being true

donned a theatrical doctave disguise,

unlawful lover, the husband removed
his disguise and revealed his identity.

Continuing of the Great Sale of Women's Popular Priced Coats---

\$7.50, \$10 and \$15.

Again we have replenished the lines in this splendid selling event, adding hundreds of clever garments in order to keep pace with the demand for medium and low price coats from this department. This extraordinary demand proves our oft repeated statement that our styles are never seen in other stores and our values seldom equalled and never surpassed.

All this season's best styles are included—50 inch tight-fitting, semi-fitted and the full loose circular style, and the materials are such as are usually found in coats that sell at \$25.00 and \$30.00. English broadcloth, light and medium weight kersey in black and plain colors. Included are many beautiful coats of all wool materials in medium and dark fancies, checks, stripes and plaids. MR. CHARLSON

Makes a Proposition to the Sports of Mansfield.

The following from the Mansfield Shield, has to do with the gentleman who is better known in Lima as the manager of the "Chicago Sardow," whom Al Akerman, the best 145 pound man on earth, had an easy time with, as he will with other middle weights before he retires from the business. The Shield says:

"M. Charlson, of Lima, who is managing a Turkish wrestler with an unknown name this season, is quite anxious to have his man meet some of the Mansfield talent. Charlson doesn't seem to think a whole lot of the local throwers. He says: 'I hear there are some wrestlers in Mansfield. I would match the Turk against three of your wrestlers to throw them all in 90 minutes of actual wrestling time; each-as-catch-can style for any part of \$500.'

NO APPOINTMENT

May be Expected For Several Days at Least.

Active aspirants for the vacant position on the common pleas bench caused by the untimely death of the late Judge Cunningham are busily securing signatures to petitions presented members of the bar in this county.

Though not necessarily required, it is presumed the appointment will come to a Lima man, as Allen county requires a resident judge. However, there is nothing to prevent the going to some one outside the county, who may take up later residence in this city. The precedent however has been to name some member of the bar in the county where the deceased jurist resided. Necessarily the appointment will come to a republican, and now prominently before the public are three names, the friends of whom are busy in their behalf. The names mentioned are George H. Quail, F. E. Mead and Don C. Henderson.
